**Q2** Have you found the topics covered by the speakers at the Monthly Meetings (in the past 12 months) to be both informative and relevant to your role within your company? **Strongly agree**

---

**Q3** What topics would you like to have covered by speakers at future Monthly Meetings?

The speakers from regulatory bodies have been extremely helpful, so would like to continue to have these presentations. Also would suggest presentations from organizations engaged in genomic research, such as the NIH All of US research program, the UK biobank etc, to give us perspectives or possible opportunities for collaboration. In addition, as returning results is becoming more and more of an issue (particularly in oncology), would suggest we have speakers on this topic.

---

**Q4** Do you have any particular speakers that you would like to recommend to present at future Monthly Meetings?

Would be very interested in a speaker who has experience in returning results to research participants. Some suggestions include: Michael Murray from Geisinger, Joanne Murabito from Framingham Heart Study, Wendy Chung from Columbia U. Wendy is also on the ACMG board so she might have some interesting insights.

---

**Q5** Do you think that the time given to speakers at our Monthly Meetings is appropriate? **Disagree**

---

**Q6** Is there some other feedback that you would like to provide regarding the speakers that have presented at the Monthly Meeting during the past year?

We seem to go over time with speakers, would suggest allocating more time to the speakers.
