## Q5 If you answered “Yes” to Q3 how does your role support your company's PGx strategy? Please describe:

Answered: 9 Skipped: 1

#	RESPONSES	DATE
1	Responsible for biorepository and analysis of omic data and associated biomarker evaluation	5/5/2021 12:52 AM
2	Provide advice on ICF language around sample management and use, including PGx samples	5/4/2021 1:57 PM
3	I think the question meant Q4, I provided support on analysis and reporting PGx in clinical trials so not directly on strategy but help on decision making.	4/29/2021 12:11 PM
4	Review of each ICF version (global, country and site-specific) to ensure PGx language is included and accurate. Participate in IRB/EC negotiations as needed. Track site-specific PGx language against biorepository inventory.	4/27/2021 7:55 PM
5	I'm the current Head of Human Genetics at Eisai, and support the use of human genetics from early discovery through development. In this capacity, I have a strong role to play when it comes to PGx considerations, and in planning for including this criteria in decision-making as it relates to trial design.	4/23/2021 5:01 PM
6	At a high level, I ensure that the language is appropriate in all relevant protocols to allow the collection of PGx samples for (future) use.	4/23/2021 4:29 PM
7	PGx strategy roles up through my group.	4/22/2021 4:59 PM
8	Develop local ICDs-- accommodate local requirements, sites' own templates, answer questions from sites & ECs/IRBs	4/22/2021 1:24 PM
9	I'm leading an effort around PG-PK for clinical trials, and an initiative for genotyping for clinical enlightenment.	4/22/2021 7:01 AM

**Q11 If you answered “Yes” to Q9 what materials would you like to see prepared for use with clinical trial patients or other target audiences?  
Please describe:**

Answered: 7 Skipped: 3

#	RESPONSES	DATE
1	Handling of incidental findings, exploratory future research and returning of data and results	5/5/2021 12:52 AM
2	I don't have any specific suggestions at this time	5/4/2021 1:57 PM
3	not sure	4/29/2021 12:11 PM
4	patient-facing materials as well as more sponsor-facing materials.	4/27/2021 7:55 PM
5	Explanations of how generally samples are collected and used, and how results may or may not be returned to participants. How patients can find out more information/resources available to patients that might have an incidental finding related to PGx, etc.	4/23/2021 5:01 PM
6	Additional work in the ICD space may be very useful.	4/22/2021 4:59 PM
7	Have a space just for sharing info and documents. does not need to be very formal.	4/22/2021 7:01 AM

## Q12 If you answered “No” to Q9 why would you not like any other education materials to be developed by the I-PWG? Please describe:

Answered: 5 Skipped: 5

#	RESPONSES	DATE
1	N/A	5/4/2021 1:57 PM
2	not sure	4/29/2021 12:11 PM
3	NA	4/23/2021 5:01 PM
4	I think what we have is sufficient.	4/23/2021 4:29 PM
5	I don't think they are necessary and also I think they put disproportionate emphasis and real estate on a sample that is piggybacked onto a clinical trial. It is relatively trivial compared to conveying information about the purpose of the trial, the risks of an unapproved drug, no guarantee of benefit, description of what's involved in the study, etc.	4/22/2021 1:24 PM

**Q13 Aside from education materials for use with clinical trial patients do you think that there are other materials that the I-PWG should be developing as part of a broader education effort by the I-PWG? Please describe:**

Answered: 7 Skipped: 3

#	RESPONSES	DATE
1	N/A	5/4/2021 1:57 PM
2	not sure	4/29/2021 12:11 PM
3	Yes, I think there could be benefits in creating materials for commercial development colleagues to understand pros and cons of PGx to development, including potential for cost-savings with trial designs, paired-diagnostics development and opportunities, labeling, etc.	4/23/2021 5:01 PM
4	Perhaps other information on process for sharing of information with subjects/physicians.	4/23/2021 4:29 PM
5	Reinitializing interactions with regulators should be possible in the near future and of use.	4/22/2021 4:59 PM
6	Can't think of any.	4/22/2021 1:24 PM
7	yes. we could develop a Consortium concept or Consortium agreement on which Best Practices and white papers we prefer to apply in our organization. I'm thinking CPIC recommendations. gene specific. Also i-PWG "internal white papers" made with the results of the workstreams.	4/22/2021 7:01 AM

## Q14 What area of the I-PWG website do you visit most often? Please describe:
